## **[North Pole refinery settles HazMat storage allegations](#)**

HazMat Management Magazine (subscription) - 5 hours ago

On June 19, 2013, **Flint Hills** Resources conducted groundwater cleanup activities at its refinery that generated spent groundwater pre-filters containing iron sulfide. The spent groundwater ... According to Scott Downey, manager of **EPA's** Air & Hazardous Waste Compliance Unit in Seattle, under the Resource Conservation and Recovery Act (RCRA), waste generators are required to determine whether or not their waste is hazardous at the time of generation, then label it clearly and store it properly. "In this case, two ...
